# PREFACE

It is great opportunity for me to have the 'O' level in MSITM DEGREE COLLEGE GONDA. In the accomplishment of this diploma I am submitting a project report on "COLLEGE INFORMATION WEBSITE".

## ○ ABSTRACT

The purpose of college website is to provide the information related to courses, contact etc and full-fledged computer software, fulfilling their requirements, so that their valuable information can stored for a longer period with easy accessing and manipulation of the same. The required software and hardware are easily to work with.

College website, as described above, can lead to error free, secure, reliable, and fast management system. It can assist the user to concentrate on their other activities rather to concentrate on the record keeping. Thus, it will help organization in better utilization of resources. The organization can maintain computerised record without redundant entries. That means that one need not be distracted by information that is not relevant, while being able to reach the information.
